

## Maternal Healthcare Leading to Reduced MMR

**Significant decline in MMR from 167 in 2011-13 to 97 in 2018-20**

**PMSMA, PMMVY, LaQshya among interventions for reducing MMR through maternal care**

\*Maternal Mortality Rate (MMR) is the number of maternal deaths during a given time period per 100,000 live births during the same time period (WHO)
