For compiling taxes on products at Constant Prices, volume extrapolation is done using volume growth of taxed goods and services. The total product subsidies for Centre were compiled using the latest information on major subsidies viz. Food, Urea, Petroleum and Nutrient based subsidy as available on CGA website and Revised Estimates for 2021-22. The expenditure incurred on subsidies by most States upto March 2022 as available on CAG website along with the state-wise BE provision for 2021-22 were used to compile product subsidies of States. 9. Improved data coverage, actual tax collections and expenditure incurred on subsidies, data revisions made by source agencies etc. would have a bearing on subsequent revisions of these estimates. Estimates are, therefore, likely to undergo revisions for the aforesaid causes in due course, as per the release calendar. Users should take these into consideration while interpreting the figures.
