**[Primary Sector:** Agriculture, Livestock, Forestry & Fishing and Mining & Quarrying

**Secondary Sector:** Manufacturing, Electricity, Gas, Water supply & Other Utility Services and Construction

**Tertiary Sector:** Trade, Hotels, Transport, Communication and Services related to Broadcasting, Financial, Real Estate & Professional Services and Public Administration, Defence & Other Services]

## II. Methodology and Major Data Sources

Advance Estimates of GDP are indicator based and compiled using the benchmark-indicator method i.e. the estimates available for the previous financial year (2023-24) are extrapolated using the relevant indicators reflecting the performance of sectors. Data sourced from various Ministries/Departments/Private Agencies serve as valuable inputs in the compilation of these estimates.

The sector-wise estimates have been compiled using indicators/data sources viz. (i) Index of Industrial Production (IIP), (ii) Financial performance of Listed Companies based on available quarterly financial results of these companies for Q1 and Q2 of 2024-25, (iii) Estimates of Major Agricultural Crops and Horticultural crops for 2024-25 as provided by Ministry of Ag. & FW, (iv) Production Targets and Summer as well as Rainy season production estimates of Major Livestock Products for 2024-25; (v) Fish Production, (vi) Production of Coal, Crude Petroleum, Natural Gas, Cement and Consumption of Steel, (vii) Net Tonne Kilometres and Passenger Kilometres for Railways, (viii) Passenger and Cargo traffic handled by Civil Aviation, (ix) Cargo traffic handled at Major and Minor Sea Ports, (x) Sales of Commercial Vehicles, (xi) Bank Deposits and Credits, (xii) Premium related information of Life and Non-Life Insurance companies, (xiii) Data on outward Supplies of Goods and Services available from GSTN upto November 2024, (xiv) Accounts of Central and State Governments, (xv) Goods and Services Tax collections etc., available for first 6-9 months of the FY 2024-25. Year-on-Year growth rates (%) in the main indicators used in the estimation are given in the **Annexure B**.

Total tax revenue used for GDP compilation includes non-GST revenue as well as GST revenue. The Budget Estimates of Tax revenue for 2024-25 along with latest available information from Controller General of Accounts (CGA) and Comptroller and Auditor General of India (CAG) have been used for estimating taxes on products at Current Prices. For compiling taxes on products at Constant Prices, volume extrapolation is done using volume growth of taxed goods and services. The total product subsidies at Current prices were compiled using the information on major subsidies viz. Food, Urea, Petroleum and Nutrient based subsidy for Centre as available on CGA website and the expenditure incurred on subsidies by most States up to November 2024 as available on CAG website along with the Centre/ State-wise BE provision for 2024-25. Information available on Revenue expenditure, Interest payments, Subsidies etc. from Centre and States for 2024-25 were used for estimating Government Final Consumption Expenditure (GFCE).

Improved data coverage and revision in input data made by source agencies would have a bearing on subsequent revisions of these estimates. Estimates are, therefore, likely to undergo revisions for the aforesaid causes in due course, as per the release calendar. Users should take these into consideration while interpreting the figures. The Second Advance Estimates of Annual GDP for FY 2024-25 along with Quarterly GDP estimates for the quarter October-December of 2024-25 (Q3 2024-25) will be released on 28.02.2025.
