Clean and Green Panchayat
"Sustainable living for today and tomorrow."

Clean air, green trees, and plastic-free surroundings — a Clean and Green Panchayat protects nature while improving lives. It encourages tree planting, eco-friendly energy, waste segregation, and total sanitation. It builds a future-ready village that respects the environment and lives in harmony with it.

What is Panchayat Advancement Index (PAI) ?

Multi-domain and multi-sectoral index that is intended to be used to assess the overall holistic development, performance & progress of panchayats. The Panchayat Advancement Index takes into account various socio-economic indicators and parameters to gauge the well-being and development status of the local communities within the jurisdiction of a panchayat.

Table of Contents

1 Target Audience

This is the first version of the User Manual / SoP for National PAI 2.0 Portal being developed by NIC. The target audience is as under:

1. State PAI Nodal Officer.
2. Development Block PAI Nodal Officer.
3. Secretary, Gram Panchayat.

2 SDGs and LDSGs

Sustainable Development Goals (SDG)

These are a set of **17 global goals** adopted by all United Nations member states in 2015 as part of the **2030 Agenda for Sustainable Development**. They serve as a universal call to action to end poverty, protect the planet, and ensure peace and prosperity for all by 2030. Here are the 17 SDGs:

1. No Poverty
2. Zero Hunger
3. Good Health and Well-being
4. Quality Education
5. Gender Equality
6. Clean Water and Sanitation
7. Affordable and Clean Energy
8. Decent Work and Economic Growth
9. Industry, Innovation, and Infrastructure
10. Reduced Inequalities
11. Sustainable Cities and Communities
12. Responsible Consumption and Production
13. Climate Action
14. Life Below Water
15. Life on Land
16. Peace, Justice, and Strong Institutions
17. Partnerships for the Goals

In the context of **Panchayati Raj and rural governance**, SDGs are localized through initiatives like **LSDG (Localization of Sustainable Development Goals)**, enabling Gram Panchayats to align their development efforts with these global objectives.

MINISTRY OF PANCHAYATI RAJ
GOVERNMENT OF INDIA

2.1 Localized Sustainable Development Goals (LSDG)

LSDG refers to the process of aligning and implementing the **United Nations Sustainable Development Goals (SDGs)** at the **Gram Panchayat level**. This initiative is part of the Government of India's effort to make Panchayati Raj Institutions (PRIs) vibrant centers of local self-governance and economic growth.

The Ministry of Panchayati Raj has adopted a **9-theme approach** to localize SDGs, making them more relatable and actionable for Panchayats and rural communities. Preparation of Gram Panchayat Development Plan (GPDP) that includes planning for development works and activities to be carried out in Gram Panchayats must be aligned with the following 9 LSDG Themes:

1. Poverty-free and enhanced livelihood Panchayat.
2. Healthy Panchayat.
3. Child-friendly Panchayat.
4. Water-sufficient Panchayat.
5. Clean and green Panchayat.
6. Self-sufficient infrastructure Panchayat.
7. Socially secured Panchayats.
8. Panchayats with good governance
9. Women-friendly Panchayat.

This thematic framework helps Panchayats plan and implement development initiatives that are aligned with the global SDG agenda but tailored to local needs.

3 Panchayat Advancement Index (PAI)

The Panchayat Advancement Index (PAI) is a multi-domain and multi-sectoral index that is intended to be used to assess the overall holistic development, performance & progress of panchayats.

The Panchayat Advancement Index takes into account various socio-economic indicators and parameters to gauge the well-being and development status of the local communities within the jurisdiction of a panchayat. The index typically considers factors such as:

- Infrastructure: Availability of basic amenities like roads, electricity, water supply, sanitation facilities, etc.
- Health and Education: Access to healthcare services, educational institutions, literacy rates, and enrollment in schools.
- Economic Indicators: Income levels, employment opportunities, agricultural productivity, and economic activities.
- Social Indicators: Poverty rates, gender equality, social inclusion, and overall quality of life.
- Governance and Administration: Efficiency and transparency of local governance, delivery of public services, and citizen participation.
- Environmental Sustainability: Measures related to ecological balance, conservation, and sustainable practices.

The Panchayat Advancement Index shall provide public representatives, policy makers, government agencies, and local authorities with valuable insights into the areas that require attention for improvement within the rural areas under the jurisdiction of the panchayats. It helps in identifying disparities, achievement of development goals, and formulating targeted policies and interventions to enhance the overall well-being and quality of life of rural communities. The specific indicators and weights used in calculating the Panchayat Advancement Index can vary based on the goals and priorities of the governing body or organization that develops and utilizes the index.

4 PAI (Panchayat Advancement Index) Portal

PAI Portal has been designed and developed by NIC to facilitate a common integrated platform for collaborative functioning by all Stakeholders involved in the data collection, verification, validation and other process involved in computation of PAI.

It helps in automating various functions that are involved in Collecting, Managing, Monitoring and Administering PAI related data and other operations involved in PAI exercise. It shall facilitate and empower all Stakeholders that include Gram Panchayats, Block Nodal Officers, Line Departments & their offices, Ministries.

iv. Gram Panchayat Credentials are same as in eGramSwaraj portal (PR-xxxx-V-ADM) where xxxx is Gram Panchayat Name

v. **Block level line department Nodal Officer**: Block PAI Nodal Officer shall register Nodal Officer of Block level line departments of his/her block and generate their username and passwords to enable them log on to PAI portal.

6 Master Data: PAI Indicators, Data Points, and Data Sharing templates

Master Data in the National PAI Portal consists of Ministries, Departments, Themes, Indicators, and Data Points. Following master data is being displayed for information:

i. List of Indicators and their data points with theme.

ii. List of Unique Data Points.

iii. Templates to be used by Line ministries for sharing the data.

7 State PAI Nodal Officer- Configuration & State-specific localization of PAI 2.0 Portal

The system allows the State PAI Nodal Officers to configure and localize the National PAI Portal as per their State-specific requirements. The State officer has to follow the following steps for configuring the National PAI Portal as per their State-specific requirements.

7.1 Preparatory Work required for configuration

1. **Download** the Theme, Indicator & Data Points Configuration sheet containing the theme-wise list of Indicator & Data Points being used for PAI 2.0 and blank spaces required for filling in the details and other information required for configuring and localizing the PAI Portal for the State.

2. **Study** the Theme, Indicator & Data Points and information required for Configuration as mentioned in the sheet.

3. **Organize** Formal Consultation workshop with State and field level officials of partner line departments and State NIC officials. They shall discuss the data points, their source and draft instructions for collecting the data points. These instructions shall be followed by all gram panchayats across the State and shall result in high-quality and reliable data.

   a) **Examine** Indicators (All Mandatory).

   b) **Identity** Block-level offices of partner line departments that shall verify and approve the data of their sector/domain as submitted by Panchayats and

   c) **Identify** the owner and source of each data point i.e., Field Office, Source Registers that maintain the data. This source shall be used for collecting and verifying the data.

4. **Update** the configuration sheet by filling in all required information. This sheet shall be referred to and used for updating configuration-related information on portal.

7.2 Configuration of Block-level offices of line departments

1. **Register** Block-**level offices** of the line departments, who shall verify and validate the data that is submitted by Gram Panchayats.

7.3 Configuration of GP-level Field offices of line departments.

1. **Register** the **GP level/field offices of line departments** under each block level office that own and maintains the data in their records/ registers and shall provide the data to the gram panchayats.

7.4 Configuration of Data Source Registers being maintained by GP level Field offices.

1. Register the list of records/ registers maintained by GP-level offices of line departments. These registers shall be used as a source for obtaining data required for PAI. Field offices shall refer to this register and shall provide the data to the gram panchayats.

7.5 Configuration of Block-level & GP level Field offices

2. Configuration & State-specific localization

3. **Configure** / **localize** the PAI Portal and its data points as per the State specific requirements. It shall allow the Panchayat secretary and other field-level staff to understand the data points, the source field office of the line departments for each data point, and registers being maintained by the field office that shall be used an official data source for collecting and validating the data.

7.6 Progress Monitoring

4. **Monitor** the progress of the PAI-related activities i.e. the conduct of orientation workshops, master's trainings and other capacity building programs.

7.7 Workshops and training

5. **Register** details of consultative workshops, training programs, workshops, meetings and other important activities/ events related to PAI.

7.8 Content Management

6. **Register** orders, circulars and other instructions issued for effective implementation of PAI.

7.9 Caution

7. **Caution**: Blocks shall be able to use PAI Portal only after the State has configured it.

7.10 Screenshots of software

State PAI Portal Nodal Officer shall perform following operations to configure the National PAI Portal as per their State Specific environment

- Register Block Level Offices who shall be responsible for verification of data of their sector as submitted by the Gram Panchayats

- Register Field level Level Offices of various departments who create / own and maintain the sectoral data related to the GP and shall provide the data to Gram Panchayats

- Select the optional PAI indicators as per their State specific requirements.

- Configure the data points that are to be collected from field. They shall enter following details are each data point.

  -> Description of the data point as per State specific practices and languages

  -> Assign the Field office that are provide the data

  -> Select the register being maintained byt he field office from where the data shall collected and verified.

  -> Record instructions / hint for the Panchayat Staff for collecting the data point

Use Option 1.3 from Menu Item: Download Unique Data Points Configuration Sheet

7.11 Menu Option 2.3 Add New Data Verification Office

11.4.1 Validate before submission by GP

Any data updates done by GP need to be validated before submission; validation rules have been applied for Zero Value Check, Cross checking of data point values etc.

If GP Data does not pass Validation Check a Summary of Validation Check violations is displayed which needs to be corrected; For Eg. Screenshot as shown below shows Total Population as 1500, Male Population as 1100, Female Population as 100 so 1500 <> 1100+100 hence not validated and needs to be corrected. Typing 1118 in search window will take user to respective Data Point for correction.

A. Gram Panchayat Profile

1	ग्राम पंचायत में कुल जनसंख्या (संदर्भ वर्ष के 31 मार्च को जनसंख्या) [Question Code-1120]	ब्लॉक स्तरीय एमओआरडी	
	Total Population in Gram Panchayat (Population as on 31st March of reference year) ?	योजना सत्यापन कार्यालय	1500
	Note: निर्देश भरें		
1.1	कुल पुरुष जनसंख्या [Question Code-1119]	ब्लॉक स्तरीय एमओआरडी	
	Total Male Population ?	योजना सत्यापन कार्यालय	1100
	Note: निर्देश भरें		
1.2	कुल महिला जनसंख्या [Question Code-1118]	ब्लॉक स्तरीय एमओआरडी	
	Total Female Population ?	योजना सत्यापन कार्यालय	100
	Note: निर्देश भरें		

Use [code-1118] Find to search and edit. For example: To edit value for Data Point Value code **1118**, type **1118** in the search box and navigate through search results to edit a specific Text Box or Yes/No Value.

Data Point 1	Data Point 1 Value	Data Point 2	Data Point 2 Value	Condition
Total Population in Gram Panchayat (Population as on 31st March of reference year) [1120] DCF : Panchayat Office (MoRD) [394]	1500	Total Female Population [1118]+Total Male Population [1119](100 + 1100) DCF : Panchayat Office (MoRD) [394]	1200	equal (Sum of Data point Ids 1118 & 1119)

Clean and Green Panchayat
"Sustainable living for today and tomorrow."

Clean air, green trees, and plastic-free surroundings — a Clean and Green Panchayat protects nature while improving lives. It encourages tree planting, eco-friendly energy, waste segregation, and total sanitation. It builds a future-ready village that respects the environment and lives in harmony with it.

What is Panchayat Advancement Index (PAI) ?

Multi-domain and multi-sectoral index that is intended to be used to assess the overall holistic development, performance & progress of panchayats. The Panchayat Advancement Index takes into account various socio-economic indicators and parameters to gauge the well-being and development status of the local communities within the jurisdiction of a panchayat.

Panchayat Advancement Index score (2022-2023)
