F. No. **CS-22/1/2025-NCH/11304**

Date
14 AUG 2026

PUBLIC NOTICE **Clarification Regarding Cross-Practice**

The National Commission for Homoeopathy (NCH) considers it necessary to clarify its position regarding the practice of other systems of medicine by Homoeopathic practitioners.

As per **Regulation 36(y) of the National Commission for Homoeopathy (Professional Conduct, Etiquette and Code of Ethics for Practitioners of Homoeopathy) Regulations, 2022,**

“36. Professional or ethical Misconduct.—(y) practices, any other system of medicine other than Homoeopathy:

Provided that nothing contained in this clause shall prevent or restrict to practice by medical practitioner of Homoeopathic under the National Health Programme and others programme run by Central or State Government after undergone any training or course recognized or prescribed by the competent authority.”

However, the proviso to Regulation 36(y) specifically provides that this prohibition does not prevent or restrict a Homoeopathic medical practitioner from practicing under a National Health Programme or any other programme run by the Central or State Government, provided the practitioner has undergone the training or course recognized or prescribed by the competent authority.

Further, **Sub-regulation (7) of Regulation 14 of the National Commission for Homoeopathy (Homoeopathy Graduate Degree Course – Bachelor of Homoeopathic Medicine and Surgery (B.H.M.S.) Regulations, 2022)** recognizes the role of Homoeopathic medical graduates in Government health facilities and National Health Programmes. The provision envisages clinical training in Government hospitals and health institutions and specifically provides for students to **“participate actively in different National Health Programme implemented by the State Government.”**

This is issued to ensure that Regulation 36(y), including its proviso, is understood and reported in its correct perspective .

This issues with the approval of the competent authority.
