INTRODUCTION

India's food economy, in many respects, mirrors the country's rich regional, cultural, and agricultural diversity. From sweets to cereals, from vegetables to fruits, from pickles to herbs, from traditional confectionaries to local drinks, from meat and poultry to aquatic products, the national food map of India is a resplendent microcosm of the country's rich civilisational history.

A well-developed food processing sector with a higher level of processing helps in the reduction of wastage, improves value addition, promotes crop diversification, ensures a better return to the farmers, promotes employment as well as increases export earnings. This sector is also capable of addressing critical issues of food security, food inflation, and providing wholesome, nutritious food to the masses. The food processing sector is one of the important segments of the

Indian economy in terms of its contribution to GDP, employment, and investment. During 5 years ending 2018-19, the Food Processing sector has been growing at an Average Annual Growth Rate (AAGR) of around 10.00%. The sector constituted as much as 8.98% and 11.11% of the GVA (Gross Value Added) in the Manufacturing and Agriculture sector respectively in 2018-19.

Micro Food Processing Enterprises in India

Number of food processing enterprises in unorganised sector	% Contribution of micro enterprises to Employment in food processing	% of microenterprises located in rural areas	% share of family-based micro enterprises
25 Lakh	74%	66%	80%

CHALLENGES AND OPPORTUNITIES

The micro food processing sector faces several challenges including the high cost of institutional credit, lack of access to modern technology, and value addition opportunities. Other challenges being faced by this segment are lack of awareness about food safety standards, lack of market knowledge, lack of branding and marketing for their produce. A large number of unskilled manpower also pose challenges to the micro-enterprises.

PROBLEMS FACED BY MICRO FOOD ENTERPRISES

However, the potential for growth of India's food processing industry is immense as the organised retail sector is growing, young demography, change in consumption pattern, rise in disposable incomes, rapid Urbanisation, rise in the nuclear families with a growing demand for functional and nutraceutical foods.

PMFME SCHEME

The scheme seeks to support micro food processing enterprises through a package of support and services. These include:

Training & financial support for technology upgradation

Support for the transition of existing enterprises into formal frameworks

Support to Farmer Producer Organizations (FPOs), Self Help Groups (SHGs), Producers Cooperatives along their entire value chain

Marketing support for their integration with the organized supply chain

For compliance and registration under different regulatory frameworks

The Scheme is to be implemented for a period of five years from 2020-21 to 2024-25 with an outlay of Rs. 10,000 Crore. The main theme of the Scheme is the One District One Product (ODOP) approach, a part of a broader strategy of concentrated agro and industrial development focused on each district, offering an array of fiscal incentives, credit, marketing, and policy support.

JOURNEY SO FAR

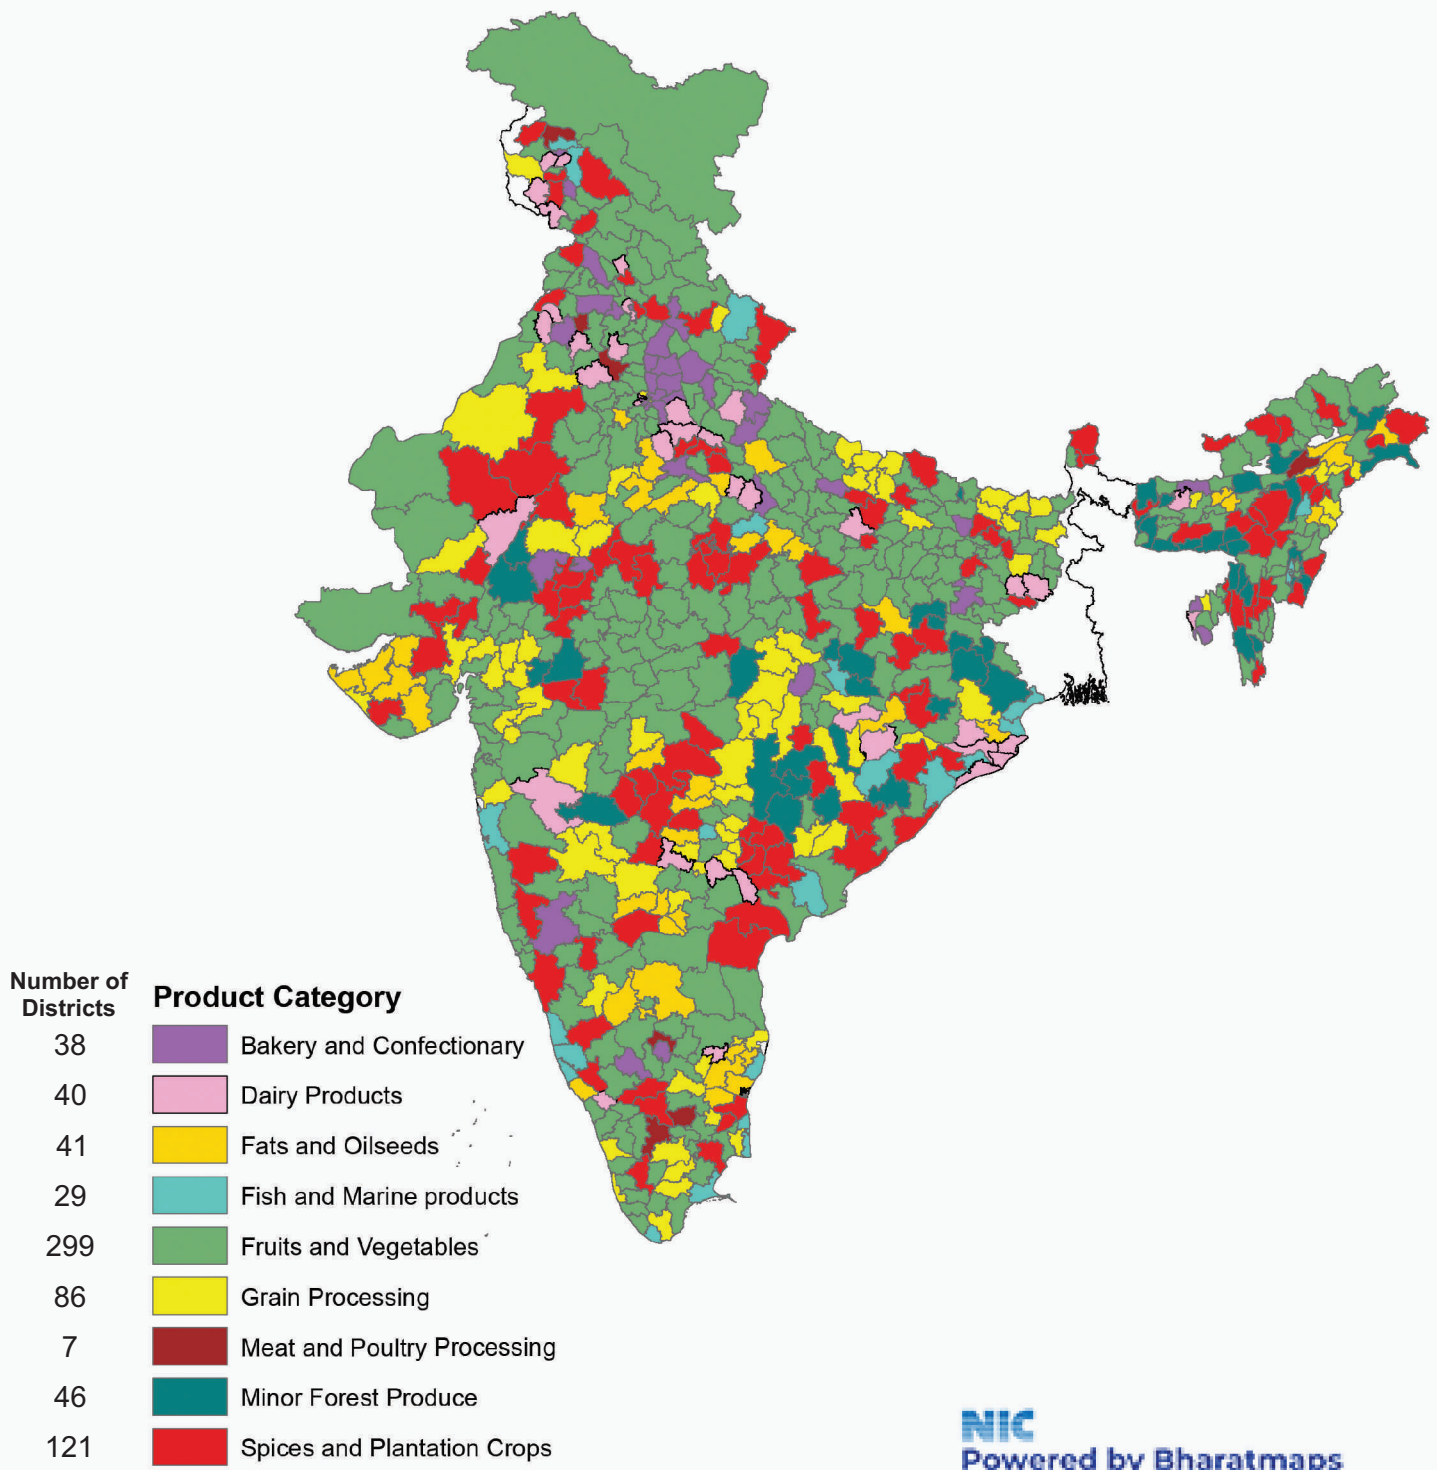

Setting up the Institutional Mechanism for Implementation of the scheme

PMFME is a centrally sponsored scheme and is implemented in close collaboration with State Nodal Agencies of respective States. All the States/UTs have appointed Nodal Agencies for implementation of the scheme. Applications for credit linked subsidies for individual enterprises are approved at the district level, while applications for groups are approved at the State Level/MOFPI. MIS portal for PMFME Scheme is receiving both individual and group applications for credit linked subsidy for upgradation of food processing units. For monitoring & approvals, Committees at state and district level in the States/UTs have been constituted. For Collaboration and Convergence in the implementation of the scheme, Joint Letters and MoUs have been signed with Ministries of Tribal Affairs, Rural Development, Housing and Urban Affairs, TRIFED, ICAR, NSFDC, NSTFDC, NAFED, NCDC, RSETIs, FSSAI and NIRD-PR. MoUs have been signed with Union Bank of India as **Nodal Bank** and with 14 banks as lending banks.

One District One Product (ODOP) Strategy

708 districts of 35 States/UTs in the country have selected ODOPs consisting of 137 unique products ranging from fruits and vegetables, makhana, moringa, milk products, bakery items, jaggery, pickles, papad, etc. A GIS ODOP digital map of India has been prepared that provides details of ODOP products of all the States and UTs. It will enable stakeholders to identify resources and map their value chain.

Type of Products chosen as ODOPs across India

District specific products can be seen at the following site
<https://odop.mofpi.gov.in/odop>

Credit linked subsidies for capital investment to micro food processing enterprises

19928 registrations and 8336 applications have been received on the application portal. Out of these 550 applications have been sanctioned by the banks for Loan Disbursement.

Group Application

Also 106 applications for SHGs, 14 for Cooperatives and 24 for FPOs have been received and are being screened.

State Level Up-gradation Plans

28 States/ UTs have appointed agencies for conducting planning studies called **State Level Up-gradation Plans (SLUPs)** for the upgradation of Micro-food processing enterprises. Three states/UTs namely Himachal Pradesh, Tripura, Dadra Nagar Haveli & Daman and Diu have finalized their SLUPs.

Seed Capital to SHG members

Seed Capital is being provided to members of SHGs engaged in food processing. So far 64250 members of SHGs have been recommended for Seed Capital disbursement by respective State Rural Livelihood Missions (SRLMs) for an amount of Rs 185.11 Crores. Till date an amount of Rs 107.12 Crores has been released to SRLMs for 31,211 SHG members. National Urban Livelihood Mission (NULM) MIS portal is live now for identification of SHG members in urban areas.

54 Incubation Centres have been approved by MOFPI for providing production, processing, training, and demonstration services to micro food processing enterprises.

Capacity Building and Research

Two National Level Technical Institutions of MOFPI - NIFTEM & IIFPT and 35 State Agriculture Universities (SLTIs) along with ICAR institutions are developing training content for capacity building. More than 500 model DPRs, Audio & Video tutorials have been prepared and uploaded on website. Training of 425 Master Trainers and 495 district level trainers (in 20 States) has been conducted. Beneficiary trainings have started and 85 beneficiaries have been trained in 3 states. Trainings in Fruits and Vegetable processing, Bakery & Confectionery Processing, Fats and Oilseed Processing, Milk & Milk products processing, Meat & Poultry products processing, Fish & Marine products Processing, Grain Processing have been completed for multiple batches of Master Trainers and District Level Trainers. A total of 831 DRPs have been appointed in 491 districts and 357 DRPs have been trained.

R & D Project with an outlay of Rs. 3.54 Crores has been approved for Research on millet processing at micro level in favor of ICAR-IIMR, Hyderabad.

Proposals under **Marketing and Branding (M&B)** component from TRIFED & NAFED have been approved by the Ministry. Action Plan has also been finalized for the same. M&B proposal from Punjab on Jaggery, Pickles and Murabba has also been approved. Guidelines have also been issued to the states for preparation of (M&B) DPRs.

PMFME- BENEFITS FOR ALL

1. Disbursement of credit linked subsidy to 2,00,000 existing micro-enterprises.
2. The transition of existing 2,00,000 enterprises into formal frameworks
3. Increased access to credit for existing micro food processing entrepreneurs, women entrepreneurs, and entrepreneurs in Aspirational Districts.
4. The Scheme is expected to generate skilled and semi-skilled jobs at the local level.
5. Increased access to common services like food testing, storage facilities, access to high-end machinery, technologies, and incubation services.

Junak Agro

Company,
Assam

"PMFME scheme is bound to help the processors in the unorganized sector and in times like these, it will be of immense support"

Renu Mahanta

Kudambashree
Mission,
Kerala

"We expect that this scheme will have a unique impact on the majority of micro enterprises like ours in Kerala"

Ranjeena

Kheti
Virasat
Mission,
Punjab

"Youth will now be able to process their crop in their own village which will increase their income, lead to more employment, reduce migration to urban cities thereby contributing towards the prosperity of the village"

Umender Dutt

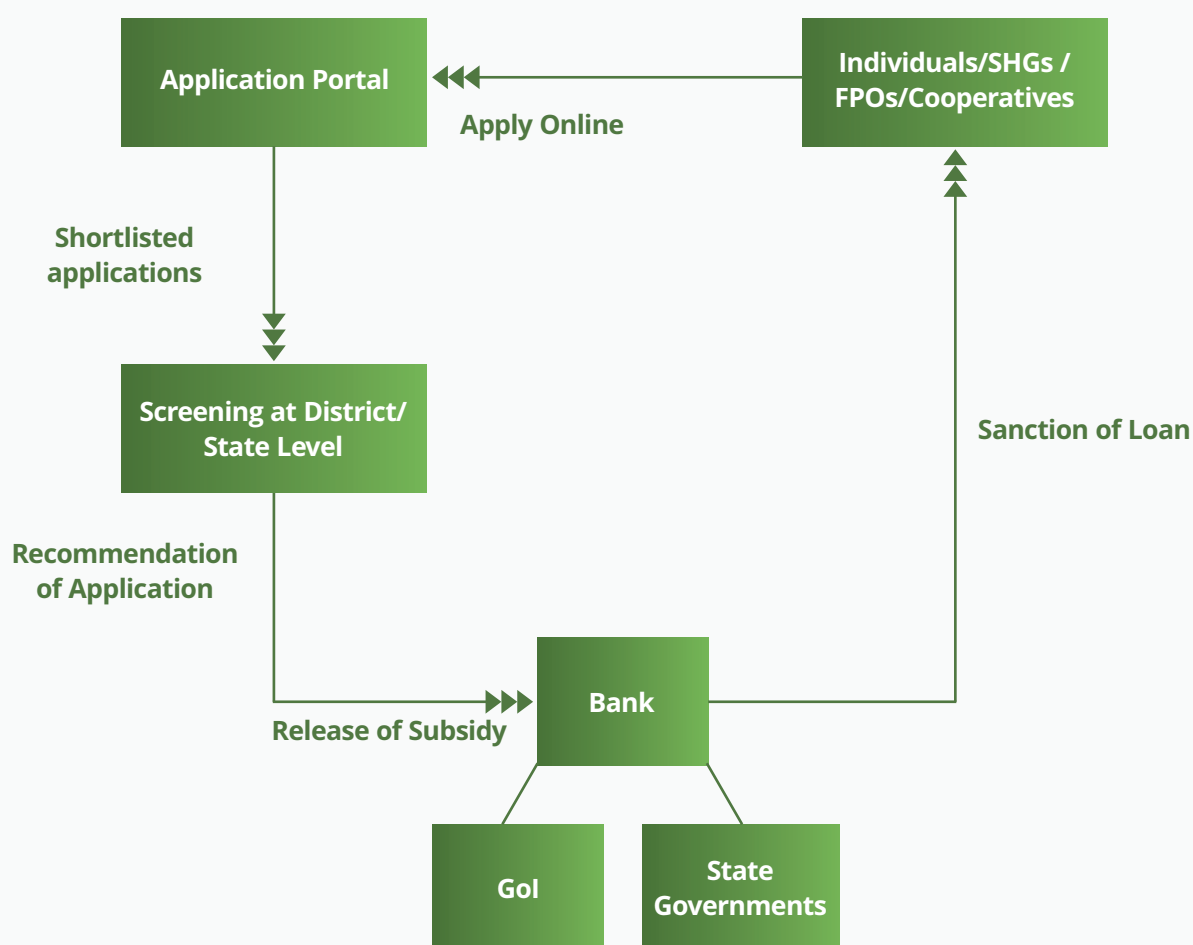

Trade
Promotion
Council
of India

"Those farmers are not industrial entrepreneurs by birth, and they need orientation and handholding to process in the direction of the industry demand"

Mohit Singla

6. Increase in turnover of micro food processing enterprises.
7. Better integration of existing micro-enterprises with the organized markets.
8. SC, ST, and Women Entrepreneurs to be empowered as the scheme lays special focus on machinery, technologies, and incubation services.

Process flow for providing credit linked subsidy to individual and group enterprises
